

## Infinity

**Client:** Immobil Luxembourg

**Architect:** Arquitectonica architects, M3 Architectes

Designed by American architect Bernardo Fort-Brescia, INFINITY LIVING, the first residential tower in Luxembourg, is quite openly inspired by the luxurious residential towers of the other side of the Atlantic. With its private concierge, its monumental entrance hall and its 150 high class apartments, the INFINITY residential tower totally redefines the concept of living in Luxembourg. The INFINITY SHOPPING centre is set within an ideal urban complex and completes the LIVE. SHOP. WORK. triptych. All takes place around 23 shops and restaurants, and an esplanade. The INFINITY WORKING offices complex offers a prestigious address with unique visibility in Luxembourg.
